

The government in India has resolved to reward the soldiers who took part in the Chitral campaign with six months' extra pay each.

It is said that Queen Victoria considers young Irish women the most beautiful in the world. As they have long had the reputation of being the wildest, they ought to be satisfied with their share of nature's gift.

The British army has a total strength according to the latest Book of 222,151. It is estimated that all its resources of the choice pieces of earth will be able to garrison each unit with a corporal and ten men.

An American speech by the Invention of Speech is being formed. The practical goal to be accomplished by such an organization is slightly problematic, but there is certainly room for improvement, both in voice and enunciation, among the American people.

Georgia apparently is about to storm the world with a great rush of peaches and melons. The peach orchards of Georgia have become a great feature in its agriculture, and a few late frosts in Delaware hereafter will be of no great consequence. As for Georgia melons, the crop to be moved this year is about 6,000 car loads.

Harriet Beecher Stowe reached the age of 82 last week, and is reported to be in excellent physical health. Her royalties on "Uncle Tom's Cabin" have expired and it is to the honor of her publishers that they still allow Mrs. Stowe a share in the sales of her historic book.

Poison is doubtless considered a legitimate weapon of warfare by Spain. The report that it is to be resorted to in Cuba, if true, is an impressive evidence of the strength of the insurrection. An army whose supply agent and recruiting officers elude the United States at will is certainly a serious menace to Spanish rule in its own domain.

People of middle age can remember when the only use for India rubber was to erase pencil marks. The importance of the article now is indicated by the fact that in the first three months of 1895 this country paid \$5,000,250 for its importation. The India rubber tree has become industrially one of the most remarkable in the whole list.

Bismarck must still feel that he regrets for something in German politics of the day. A Socialist orator has just denounced him as the great organizer of disorder, a worse enemy to Germany than ten wars, and "a baron of the Middle Ages, who knows only how to kill and steal." The old Chancellor will easily live to be 90 if his enemies talk in this strain.

A Maryland man who brought suit for \$5,000 for breach of promise has been informed by the judge that a woman who has promised to marry may change her mind and marry some body else without being liable to legal damages. The new woman is not quite sure that this is a satisfactory decision.

The late Widow Hammecker of New York, who married the duke of Marlborough, and since his decease has been the wife of Lord William Beresford, has, at the suggestion of Queen Victoria, dropped the title of duchess of Marlborough, and will henceforth be known simply as Lady William Beresford. The queen evidently did not want to be confused by two duchesses of Marlborough, as the late duke's divorced wife is still living.

Turkey has been protected for many years by European jealousies. In a military sense it was conquered not long ago by Russia, but England stepped in and saved it. The fact remains that the numerous Turks are not fit for autonomy, and England is clearly tired of pursuing a policy that indirectly leads to the slaughter of thousands of Christians in China.

It will be interesting to those who believe that city canals are among the immediate needs to know that the Manchester canal, which a year ago was pronounced a financial failure, has proved itself a paying institution. It has always been a good thing for Manchester, but has lost money as an enterprise. This year, however, it has begun to pay on its own account, and the receipts for the first four months were \$50,000 more than for the corresponding period of last year.

One trouble Russia is contending with in Eastern Asia is that the Japanese have 400,000 people on the ground and could place in the field an immense army of good fighting material at short notice. Japan has contracted for several additional battalions in Europe, and it is in order to increase the number of troops in Korea, where she can not possibly collect an army able to cope with that of Japan. The mastery silence of the Japs about Russia shows that they understand their advantages.

A Yankee, probably a Maine man, has invented a door knob that renders a latchkey superfluous. It is stated that the tumbler of the lock are so arranged as to get 100,000 combinations, by rotating the knob about its axis to each of five angular positions, which are determined by the sides of the hexagon assuming the vertical. There is much more to the description, but enough has been quoted to indicate that a convalescent trying to make the combination would be found asleep on the doorstep and standing on his head.

London has public eyes for passenger cars. They are operated by two men and have seats inside for two people. This is an early and perhaps clumsy form of a feature that will doubtless be introduced into city street traffic before long. There should eventually be a vehicle which can be managed entirely by one man. The Japanese have had hokkaido for many years, and they are the simplest form of the unpropelled car. The London cars are probably cheaper and easier than the city, and must be especially useful for night-rides.

## FREE SILVER MEN

AN ADDRESS OF THE FREE COINAGE OF SILVER.

Democrats Who Attended the Chicago Convention Have Adopted the Free Coinage of Silver as a Platform Issue.

Memphis, Tenn., June 27.—Immediately after the adjournment of the recent silver convention in this city a number of prominent Democrats who attended that gathering held a meeting in the Democratic party for the purpose of carrying on the silver campaign within party lines. As a result of this meeting the following address has been sent to Democratic leaders throughout the country.

## HIS NEW CABINET.

THE MARQUIS OF SALISBURY NAMES HIS MINISTERS.

London, June 27.—To-day was a day of accomplishment rather than speculation, and it is apparent that the crisis has been temporarily smoothed over, if not entirely passed. The marquis of Salisbury held a conference early in the morning with his cabinet, and the outcome of the meeting was a last visit to the post of the marquis to the queen at Windsor, where it is assumed he presented a list of names of the cabinet to be appointed, and that they were approved by her majesty. Later in the day the official announcement that the marquis of Salisbury had formally accepted the premiership made vacant by the resignation of Lord Rosebery was made in London. This news created a sensation, as it was generally believed that under the existing circumstances the Tory leader would hesitate to accept of a position of such responsibility. The new ministry as far as completed and officially announced is as follows:

Salisbury, premier and secretary of state for foreign affairs; the duke of Devonshire, president of the council; A. J. Balfour, first lord of the treasury; Lord Joseph Chamberlain, secretary of state for the colonies; Sir Michael Hicks-Beach, chancellor of the exchequer; Lord George Goschen, first lord of the admiralty.

The new prime minister, Robert Arthur Talbot Gascoigne Cecil, third earl of Salisbury, was born in 1830, and married the daughter of the late Baron Alderson. He was educated at Eton and is a member of the House of Commons. He has been twice secretary of state for India and twice secretary of state for foreign affairs.

It does not appear that any taking power, when presented in competition with the Royal, or the Government, has been able to secure a majority in the House of Commons. He has been twice secretary of state for India and twice secretary of state for foreign affairs.

old age. The funeral services were

making her home with Mr. and Mrs.  
Atkinson.

the city on Monday attending to legal  
business. Mr. Hartshorn is spending  
the summer on his farm at Philbrook,  
six miles from Staples, and his ap-  
pearance indicates that a granger's  
life agrees with him.

The services at the M. E. church  
last Sunday were well attended. P. E.  
Shannon preached in the morning  
and the pastor in the evening. \$100  
was easily raised to further improve  
the church and parsonage. We are  
now at home to all who desire to  
come. R. C. Opie, pastor.

to make the entertainment an en-  
joyable occasion, and it is hoped that  
a large company will be present, as  
the proceeds will be given entirely to  
the city in the fountain that they ex-  
pected to have erected earlier in the  
season.

second class passengers to go through-

ways accompany the through sleep-  
ing cars. Rates continue the lowest.

Agent, 111 Adams street, Chicago, Ill.

The Knights Templar convolve will  
be held at Boston, Mass., during next  
August, and it will be of interest to  
our Knights and their friends to note  
that arrangements have already been  
successfully accomplished by the  
Nickel Plate road, providing for the  
sale of excursion tickets over direct  
lines going and returning or by cir-  
cuitous routes, viz: going one line  
and returning another. By so doing  
many of the following notable resorts  
may be visited without additional ex-  
pense. Chautauque Lake, Niagara  
Falls, Thousand Islands, Rapids of  
St. Lawrence, Saratoga, Palisades  
of the Hudson and the Hoosac Tunnel.  
The above arrangements will no  
doubt make the low rate excursion  
tickets offered by the Nickel Plate  
Road very popular. Call on or ad-  
dress J. Y. Calahan, Gen'l Agent, 111  
Adams streets, Chicago.

The World's Best Shows.  
The salary of the great serialists,  
the Marretts family, prominent feature  
of the above shows, distributed up  
would pay the entire salary list for  
a month of many of the smaller shows  
which have for attractions usually  
commonplace artists. Remember the  
date of the Great Shows at Brainerd  
on Wednesday, July 3rd.

A Good Company.  
The Buchanan Comedy Company  
has occupied the boards at Sleeper  
opera house during the week, the at-  
tendance not being very large. The  
company is a fairly good one and de-  
serves much better patronage than it  
is receiving. On Monday night it  
was so stormy that very few people  
ventured out, while everybody, al-  
most, was out of town on Wednesday  
attending the railroad picnic. Last  
evening the attendance was much  
larger, and we predict tonight and to-  
morrow night they will be greeted  
with good houses. Saturday after-  
noon at 2 o'clock they will give a  
grand matinee. Admission 10 cents  
to any part of the house. Saturday  
night they will present to the one  
holding the lucky number a beautiful  
bedroom set. Admission only 10, 20  
and 30 cents.

Married.  
James R. Quinn and Mrs. Frances  
Vandergriff, both of this city, were  
united in marriage on Monday eve-  
ning, June 24th, Special Municipal  
Judge J. M. Johnson conducting the  
ceremony, which took place at the  
residence of John Bishop, the bride's  
father, on Seventh street south. The  
happy couple will reside in this city  
and will be at home to their friends  
on and after Monday, June 30th. Mr.  
Quinn is a well known lumberman.

Fourth of July Picnic.  
The Y. P. S. of the Swedish  
Lutheran church is arranging for a  
Fourth of July picnic to be held on  
M. Hagberg's farm, three miles east  
of town. A good programme, with  
speeches, declamations and songs in  
English and Swedish will be given.  
An effort will be made to give all who  
wish to attend a free, old-fashioned  
lumber wagon ride to and from the  
place. Wagons will leave the Swedish  
Lutheran church at 9:30 and 10:30 a.  
m. Everybody welcome.

Special Service to Cleveland.  
The fast train on the Nickel Plate  
Road leaving Chicago at 1:30 p. m.,  
arriving Cleveland 11:30 p. m., is the  
best day train between Chicago and  
Cleveland. Give it a trial and be  
convinced. Uniformed colored porters  
in charge of day coaches. Lowest  
rates to all points. For further in-  
formation address J. Y. Calahan,  
General Agent, 111 Adams Street,  
Chicago, Ill.

Ministerial Association.  
The Ministerial Association is re-  
quested to meet next Monday  
afternoon, July 1st, at 1:30 o'clock, at  
the Y. M. C. A. parlors, for the pur-  
pose of receiving the report of the  
committee appointed last Thursday,  
June 27th.

Notice to Water Consumers.

Special Council Meeting.  
A special meeting of the city coun-  
cil was held on Saturday evening last  
to consider a proposition made by C.  
N. Parker to purchase the electric  
light plant.  
On motion a committee consisting  
of Ald. Geo. Gardner, Smith, Larson,  
Reinthal and Jas. Gardner, was ap-  
pointed to consider the matter, and  
the clerk was instructed to notify Mr.  
Parker, who is in the east, by wire of  
the action taken.

Bill of Floyd Holt for \$2 was read  
and allowed.  
Matter of looking after the street  
fenced in by Mr. Badeau in Fairview  
addition was referred to street com-  
mittee. Council adjourned.

Thrown out of Court.  
On Wednesday, June 26th, the ap-  
plication of the Mississippi Water  
Power Co. for an injunction restrain-  
ing the city from using power at the  
dam, was heard in the United States  
district court at Duluth, and the case  
was thrown out of court without any  
argument being made for the city.

It was a bluff, pure and simple, on the  
part of the company to bulldoze the  
city into paying more money for rental  
than the contract between the city and  
company calls for. The judge  
evidently sized the matter up at a  
glance, and promptly rebuked such  
methods by striking the case from the  
calendar. If the bondholders of the  
dam know when they are well off, they  
will stop such methods, for there are  
many who question the validity of  
their bonds, and if they persist in  
annoying the city, the tables may be  
turned.

### The Big Show.

The date of the appearance of  
Lemen Brothers' great shows are  
now positively fixed for Wednesday,  
July 3rd. Where there is so much to  
be seen and such an immense array  
of new features of the greatest in-  
terest in tented shows that it would  
be invidious to particularize. It is  
sufficient, however, to know that the  
fame of Lemen Brothers is world  
wide as the greatest of amusement  
caterers. The special features of this  
their twentieth annual tour is Rajah,  
largest elephant on earth, two inches  
taller than Jumbo, and several tons  
heavier; and "Fighting Tom," the  
most scientific boxing kangaroo in the  
world, who will spar four rounds  
Marquis of Queensberry rules with  
his trainer, Jack Dempsey, champion  
light weight of the Pacific Coast.  
These two features alone are worth  
coming many miles to see. And here  
of course, as everywhere, their efforts  
will be appreciated by the multitude  
in overflowing canvasses.

The fine growing weather we are  
having now keeps the farmers busy  
with the weeds.

On Monday the 24th the board of  
equalization met and went through  
the assessor's books, but there were  
not many changes made, which shows  
that our assessor, W. A. Warren, took  
great care, and should be kept for  
another year.

Quite a large number of young  
folks from Bay Lake, Maple Grove  
and adjoining towns attended the  
meeting of the literary society on  
Saturday evening.

Mr. Harry Congdon is visiting  
friends in town this week.  
Henry Persson, road overseer Dis-  
trict No. 2, is doing good work on the  
roads. We think a good many other  
overseers would do well to pattern af-  
ter him.

Quite a number of contracts for  
work will be let the 5th of July by the  
superior of the different road dis-  
tricts.

State Teachers' Summer School  
Will be held under the direction of  
the county superintendents of Aitkin,  
Crow Wing and Morrison counties, at  
the Central School Building, Little  
Falls, beginning July 8th, 1895, and  
continuing four weeks.

Instructors, F. W. Hubbard, con-  
ductor, and H. V. Brewster and W.  
E. Johnson, assistants.

Summer schools have become very  
popular, and justly so. In four weeks,  
under the instruction of efficient  
educators, a great deal can be accom-  
plished. They are held at a time  
when teachers have vacation, thereby  
giving all an opportunity to attend.  
Summer schools are becoming more  
and more profitable, and in nearly all  
the states, they are now permanently  
established institutions.

The grade of the work will not be  
all elementary, (except in methods),  
and teachers should not remain away  
if they have attended a normal school  
or college; they will find that they  
can work profitably whatever sub-  
jects they wish to pursue.  
Teachers should bring all their  
text-books with them; also paper and  
lead pencils.

Teachers and those intending to  
teach are required to attend.  
Boarding can be obtained at rea-  
sonable rates, both at hotels and with  
private families.

J. A. Wilson,  
Co. Supt., Crow Wing Co., Minn.  
Application for Liquor License.  
To the County Commissioners, Crow  
Wing County:  
I hereby apply for a license to sell  
intoxicating liquors at the village of  
Lothrop, in Cass county, for the period  
of one year.

GEORGE BURKE.  
Dated June 15th, 1895.  
Hearing on above will be had on  
Monday, July 8th.

LOTHROP, TACHE,  
Co. Auditor.

Furniture and Fixtures for Sale.  
I desire to sell the furniture and  
fixtures of the Central Hotel, corner  
of Laurel and Sixth Streets and will  
make a bargain on it.  
Geo. Kroun.

Notice to Water Consumers.  
Water rent for the third quarter of  
1895 must be paid by July 10. THERE  
ARE NO EXCEPTIONS TO THIS RULE, and  
the supply for consumers who have  
not paid by that time will be shut off.

### WANTS THE ELECTRIC LIGHT PLANT.

C. N. Parker Makes A Proposition to the  
Council to Purchase It By Assuming  
the Bonds Issued Against It.

On Saturday C. N. Parker, of this  
city, who is now in the east, sent the  
following telegram to Mayor Halsted  
from New York City, which explains  
itself. Mr. Parker was on his way to  
Boston to negotiate for the purchase  
of the dam property. The telegram  
is as follows:

NEW YORK, June 21, 1895.  
MAYOR A. J. HALSTED:  
Should I purchase Brainerd Water  
Power will city council sell me elec-  
tric light plant by my assuming the  
sixty thousand dollars indebtedness,  
and they pay me eight dollars per  
month for street lights, and fifty cents  
per month for incandescent. Assess-  
ed valuation to be fifteen thousand  
per year on dam, ten thousand on  
electric plant, two thousand on electric  
light plant, two thousand on tele-  
phone for three years, taxes due on  
dam to be settled on same basis. Ad-  
vise with all althelom and wire me  
care Young's Hotel, Boston. This  
means the developing of all prop-  
erties mentioned. C. N. PARKER.

A special meeting of the council  
was held that evening to consider the  
matter, a report of which is pub-  
lished elsewhere in this issue. If the  
council should favor the proposition  
a special election would have to be  
called and the matter decided by a  
vote of the people.

Mayor Halsted has received another  
telegram from Mr. Parker stating that  
he has secured an option on the  
dam property for three months.

We do not desire to discuss the mat-  
ter at present, but deem it our duty  
to lay the above facts before the pub-  
lic so that all citizens may have an  
opportunity to consider them and de-  
cide what is the best thing to do. The  
committee appointed by the council  
to consider the matter will probably  
report at the regular meeting Mon-  
day night.

BRANERD, MINN.

The government in India has resolved to reward the soldiers who took part in the Chittagong campaign with six months' extra pay each.

It is said that Queen Victoria considers young Irish women the most beautiful in the world. As they have long had the reputation of being the wildest, they ought to be satisfied with their share of nature's gift.

The British army has a total strength according to the latest *Blue Book*, of 222,151. If England carries out all its schemes of seizing the choice places of earth it will be able to garrison each with a corporal and ten men.

An American Society for the Improvement of Speech is being formed. The practical good to be accomplished by such an organization is slightly problematic, but there is certainly room for improvement, both in voice and enunciation, among the American people.

Georgia apparently is about to storm the world with a great rush of peaches and melons. The peach orchards of Georgia have become a great feature in its agriculture, and a few late frosts in Delaware hereafter will be of no great consequence. As for Georgia melons, the crop to be moved this year is about 6,000 car loads.

Harriet Beecher Stowe reached the age of 83 last week, and is reported to be in excellent physical health. Her royalties on "Uncle Tom's Cabin" have expired and it is to the honor of her publishers that they still allow Mr. Stowe a share in the sales of her historic book.

Poison is doubtless considered a legitimate weapon of warfare by Spain. The report that it is to be resorted to in Cuba, if true, is an impressive evidence of the strength of the insurrection. An army whose supply agent and recruiting officers elude the United States at its own expense, a serious menace to Spanish rule in its own domain.

People of middle age can remember when the only use for India rubber was to erase pencil marks. The importance of the article now is indicated by the fact that in the first three months of 1895 this country paid \$9,000,000 for its importation. The India rubber tree has become industrially one of the most remarkable in the whole list.

Bismarck must still feel that he is open for something in German politics of the day. A Socialist orator has just denounced him as the great organizer of disaster, a man who has caused more than ten wars, and a "baron of the Middle Ages, who knows only how to kill and steal." The old Chancellor will easily live to be 90 if his enemies talk in this strain.

A Maryland man who brought suit for \$5,000 for breach of promise has been informed by the judge that a woman who has promised to marry him may change her mind and marry some body else without being liable to legal damages. The new woman is not quite sure that this is a satisfactory decision.

The late widow Hamersley of New York, who married the duke of Marlborough, and since his decease has been the wife of Lord William Beresford, has, at the suggestion of Queen Victoria, dropped the title of duchess of Marlborough, and will henceforth be known simply as Lady William Beresford. The queen evidently did not want to be confused by two duchesses of Marlborough, as the late duke's divorced wife is still living.

Turkey has been protected for many years by European countries. In a military sense it was conquered long ago by Russia, but England stepped in and saved it. The fact remains that the murderous Turks are not fit for autonomy, and England is clearly right of pursuing a policy that indirectly leads to the slaughter of thousands of Christians. Old China is a king of the past, and Turkey has no right claim to a place among civilized nations.

It will be interesting to those who believe that ship canals are among our immediate needs, to know that the Manchester canal, which a year ago was pronounced a financial failure, has proved itself a paying institution. It has always been a good thing for Manchester, but has lost money as an enterprise. This year, however, it has begun to pay on its own account, and the receipts for the first four months were \$50,000 more than for the corresponding period of last year.

One trouble Russia is contending with in Eastern Asia is that the Japanese have 400,000 people on the ground and could place in the field an immense army of good fighting material at short notice. Japan has contracted for several additional battalions in Europe, and it is in order for Russia to proceed with caution in Corea, where she has not possibly not an army able to cope with that of Japan. The mastery silence of the Japs about Russia shows that they understand their advantages.

A Yankee, probably a Maine man, has invented a door knob that renders a latchkey superfluous. It is stated that the numbers of the lock are so arranged as to get 10,000 combinations, by rotating the knob about its axis to each of five angular positions, which are determined by the sides of the hexagon assuming the vertical.

There is much more to be said about the door knob, but enough has been quoted to create that a convalescent trying to use the combination would be found asleep on the doorstep and standing on his head.

London has public cycles for passenger uses. They are operated by two men and have seats inside for two people. This is an early and perhaps clumsy form of a feature that will doubtless be introduced into city street traffic before long. There should eventually be a vehicle which can be managed entirely by one man. The Japanese have had like vehicles for many years, and they are the latest form of the unpropelled carriage. The London cycles are probably cheaper and easier than the cab and must be especially useful for sight-seers.

cuitous routes, viz: going one line  
and returning another. By so doing  
many of the following notable resorts  
may be visited without additional ex-  
pense. Chautauque Lake, Niagara  
Falls, Thousand Islands, Rapids of  
the St. Lawrence, Saratoga, Palisades  
of the Hudson and the Hoosac Tunnel.

The above arrangements will be no  
doubt make the low rate excursion  
tickets offered by the Nickel Plate  
road very popular. Call on or ad-  
dress J. Y. Calahan, Gen'l Agent, 111  
Adams street, Chicago.

The World's Best Shows.  
The salary of the great artist, the  
Maretta family, prominent feature  
of the above shows, distributed up  
would pay the entire salary list for a  
month of many of the smaller shows  
which have for attractions usually  
commonplace artists. Remember the  
date of the Great Shows at Brainerd  
on Wednesday, July 3rd.

A Good Company.

The Buchanan Comedy Company  
has occupied the boards at Sleeper  
opera house during the week, the at-  
tendance not being very large. The  
company is a fairly good one and de-  
serves much better patronage than it  
is receiving. On Monday night it  
was so stormy that very few people  
ventured out, while everybody, al-  
most, was out of town on Wednesday  
attending the railroad picnic. Last  
evening the attendance was much  
larger and we predict tonight and to-  
morrow night they will be greeted  
with good houses. Saturday after-  
noon at 2 o'clock they will give a  
grand matinee. Admission 10 cents  
to any part of the house. Saturday  
night they will present to the one  
holding the lucky number a beautiful  
bedroom set. Admission only 10, 20  
and 30 cents.

Married.

James R. Quinn and Mrs. Frances  
Vandergriff, both of this city, were  
united in marriage on Monday eve-  
ning, June 24th, Special Municipal  
Judge J. M. Johnson conducting the  
ceremony, which took place at the  
residence of John Bishop, the bride's  
father, on Seventh street south. The  
happy couple will reside in this city  
and will be at home to their friends  
on and after Monday, June 30th. Mr.  
Quinn is a well known lumberman.

Fourth of July Picnic.

The Y. P. S. of the Swedish  
Lutheran church is arranging for a  
Fourth of July picnic to be held on  
M. Hagberg's farm, three miles east  
of town. A good programme, with  
speeches, declamations and songs in  
English and Swedish will be given.  
An effort will be made to give all who  
wish to attend a free, old-fashioned  
lumber wagon ride to and from the  
place. Wagons will leave the Swedish  
Lutheran church at 9:30 and 10:30 a.  
m. Everybody welcome.

COMMITTEE.

Special Service to Cleveland.

The fast train on the Nickel Plate  
Road leaving Chicago at 1:30 p. m.,  
arriving Cleveland 11:30 p. m., is the  
best day train between Chicago and  
Cleveland. Give it a trial and be  
convinced. Uniformed colored port-  
ers in charge of day coaches. Lowest  
rates to all points. For further in-  
formation address J. Y. Calahan,  
General Agent, 111 Adams Street,  
Chicago, Ill.

Ministerial Association.

The Ministerial Association is re-  
quested to meet next Monday  
afternoon, July 1st, at 1:30 o'clock, at  
the Y. M. C. A. parlors, for the pur-  
pose of receiving the report of the  
committee appointed last Thursday,  
June 27th.

SECRETARY.

Special Council Meeting.  
A special meeting of the city coun-  
cil was held on Saturday evening last  
to consider a proposition made by C.  
N. Parker to purchase the electric  
light plant.

On motion a committee consisting  
of Ald. Geo. Gardner, Smith, Larson,  
Reinthal and Jas. Gardner, was ap-  
pointed to consider the matter, and  
the clerk was instructed to notify Mr.  
Parker, who is in the east, by wire of  
the action taken.

Bill of Floyd Holt for \$2 was read  
and allowed.

Matter of looking after the street  
fenced in by Mr. Badeau in Fairview  
addition was referred to street com-  
mittee. Council adjourned.

Thrown out of Court.

On Wednesday, June 26th, the ap-  
plication of the Mississippi Water  
Power Co. for an injunction restraining  
the city from using power at the  
dam, was heard in the United States  
district court at Duluth, and the case  
was thrown out of court without any  
argument being made for the city.

It was a bluff, pure and simple, on the  
part of the company to bulldoze the  
city into paying more money for rental  
than the contract between the city and  
company calls for. The judge  
evidently sided the matter up at a  
glance, and promptly rebuked such  
methods by striking the case from the  
calendar. If the bondholders of the  
dam know when they are well off, they  
will stop such methods, for there are  
many who question the validity of  
their bonds, and if they persist in  
annoying the city, the tables may be  
turned.

The Big Show.

The date of the appearance of  
Lemen Brothers' great shows are  
now positively fixed for Wednesday,  
July 3rd. Where there is so much to  
be seen and such an innumerable  
array of new features of the greatest  
interest in tented shows that it would  
be invidious to particularize. It is  
sufficient, however, to know that the  
fame of Lemen Brothers is world  
wide as the greatest of amusement  
caterers. The special features of this  
their twentieth annual tour is Rajah,  
largest elephant on earth, two inches  
higher than Jumbo, and several tons  
heavier; and "Fighting Tom," the  
most scientific boxing kangaroo in the  
world, who will spar four rounds  
Marquis of Queensberry rules with  
his trainer, Jack Dempsey, champion  
light weight of the Pacific Coast.  
These two features alone are worth  
coming many miles to see. And here,  
of course, as everywhere, their efforts  
will be appreciated by the multitude  
in overflowing canvasses.

Garrison Items.

The fine growing weather we are  
having now keeps the farmers busy  
with the weeds.

On Monday the 24th the board of  
equalization met and went through  
the assessor's books, but there were  
not many changes made, which shows  
that our assessor, W. A. Warren, took  
great care, and should be kept for  
another year.

Quite a large number of young  
folks from Bay Lake, Maple Grove  
and adjoining towns attended the  
meeting of the literary society on  
Saturday evening.

Mr. Harry Congdon is visiting  
friends in town this week.

Henry Persson, road overseer Dis-  
trict No. 2, is doing good work on the  
roads. We think a good many other  
overseers would do well to pattern af-  
ter him.

Quite a number of contracts for  
work will be let the 5th of July by the  
superintendents of the different road dis-  
tricts.

State Teachers' Summer School

Will be held under the direction of  
the county superintendents of Aitkin,  
Crow Wing and Morrison counties, at  
the Central School Building, Little  
Falls, beginning July 8th, 1895, and  
continuing four weeks.

Instructors, F. V. Hubbard, con-  
ductor, and H. W. Brewster and W.  
E. Johnson, assistants.

Summer schools have become very  
popular, and justly so. In four weeks,  
under the instruction of efficient  
educators, a great deal can be accom-  
plished. They are held at a time  
when teachers have vacation, thereby  
giving all an opportunity to attend.  
Summer schools are becoming more  
and more profitable, and, in nearly all  
the states, they are now permanently  
established institutions.

The grade of the work will not be  
all elementary, (except in methods),  
and teachers should not remain away  
if they have attended a normal school  
or college; they will find that they  
can work profitably whatever sub-  
jects they wish to pursue.

Teachers with their all their  
text-books should bring all paper and  
lead pencils.

Teachers and those intending to  
teach are required to attend.

Boarding can be obtained at rea-  
sonable rates, both at hotels and with  
private families.
